

MLA DEFENDER HYBRID

MLA is delighted to introduce our latest innovation; the Defender Hybrid public order helmet.

The Hybrid combines the proven structure of the Defender helmet shell, which has protected thousands of police officers, and the latest technology in linings and visors that will improve both the comfort and safety for the user.

Designed and manufactured in the UK we proudly hold patents in design and technology. (Patent No EP 330218)

FEATURES & BENEFITS

GROUND BREAKING COMFORT LINER

- The helmet liner includes a flame-retardant breathable spacer fabric which eliminates pressure on the forehead and reduces perspiration.
- Now incorporating memory foam to mould the internal lining to the user's head for maximum comfort.
- With an anti-viral coating to protect against bacteria, conforming to standard ISO 18184:2019(2).
- Encompassing a lightweight breathable fabric to reduce perspiration, as shown in *figure 1*.
- Any balaclava can be comfortably worn in harmony with the Defender Hybrid

Comfort Liner

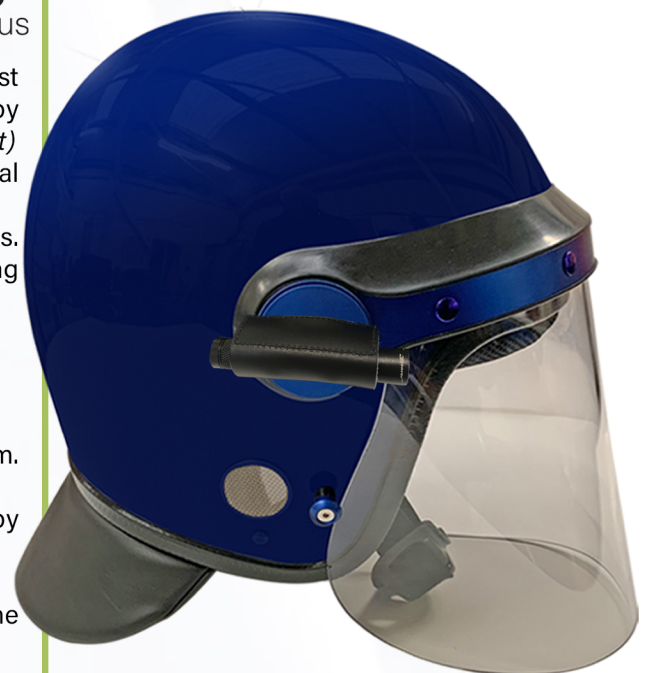

REVOLUTIONARY FACE VISOR

- The first ever visor to include an Anti-Viral coating. Controlled test results show **99% effectiveness against human Coronavirus**. Thereby reducing the need for face masks. (*Test results available upon request*)
- Each visor has smooth rounded edges and can be fitted with additional extras including Pinlock anti-mist visor insert and laser strips.
- The visor hinges easily allow attachment of both cameras and torches.
- Distinctive mushroom shaped helmet stop prevents any visor flexing and thereby gives protection to the nose and face.

DYNAMIC VISOR BAR

- A wide range of colours available to match any helmet colour.
- Made using anodised coatings combined with the latest aluminium technology to give enhanced strength and excellent resistance.
- Unique locking rings mean the visor tension can be adjusted easily by hand, eliminating the need for tools.
- No space between visor and helmet preventing fluid ingress.
- The visor seal extends around the visor and directs any fluids to the rear of the helmet.
- Steeper visor seal to increase fluid run off.

UNIQUE NECK GUARDS

- Securely attached to the helmet with extra strong Velcro® fastening.
- Each guard can also be rivetted to the helmet if required.
- Available as one piece neck-guard and extended neck guard for mounted officers.
- Three piece neck guard for better head movement.
